86 inch Smart Interactive Whiteboard

Series Overview

Dahua DeepHub Lite Smart Interactive Whiteboard has powerful processing capabilities with its built-in 4-core CPU, 4-core GPU, 8 GB RAM, 128 GB storage, Google Certification and Android 14 operating system. With a high-precision infrared touch sensor and a 4K DLED display, this interactive whiteboard will give you an extraordinary experience whether you are writing, controlling or displaying content. It features wireless screen sharing, UHD display, scan and go, and more. Let this whiteboard be your go-to choice to digitalize your office and classrooms.

Functions

Google EDLA Certified

Enables you to easily access Google applications such as Google Chrome, Play Store, Gmail, Google Drive, and Google Docs, as well as download third-party apps from the Play Store to provide enhanced security and data protection.

4K HD Display

With up to 3840 × 2160 resolution, the 4K HD display delivers a clear image in sharp, vivid colors.

Similar to Real Writing Experience

The electronic whiteboard supports pen-point writing. It comes equipped with specialized pressure-sensitive writing pens, designed to enhance the writing experience. With its soft, comfortable nib, writing on the whiteboard feels natural, similar to the real writing experience.

Text Recognition

Converts written letters into text in real time, using the default font of the system.

- The 86-inch 4K DLED display uses zero air gap technology and is built of anti-glare tempered glass, which reduces air refraction and parallax, and enhances the effect of the display.
- Infrared touch technology, support Android under 32 points infrared touch, windows under 40 points touch, touch accuracy ± 1.5 mm, response time ≤ 8 ms.
- Easily switches between Android and Windows. The PC module requires Windows.
- Performs screen mirroring with one-click for phones, computers, tablets and more.
- Supports reverse touch.
- Offers a smooth writing experience through handwriting recognition, pen writing, the fast writing response speed, and pen pressure recognition for a real writing experience.
- Supports multiple gestures such as zoom, drag and pan. You can also erase with the point, circle or board gesture erasers, or click once to clear the screen.
- Supports laser pens.
- Annotations can be easily added to any page.
- Supports taking notes and generating QR codes for file sharing and storage. The files can be easily encrypted for privacy and security protection.
- Multiple files can be processed in batches by scanning them.

Wireless Screen Sharing

In addition to basic file sharing, the device offers wireless screen sharing, interactive operations between two screens, and reverse transmissions. It also supports screen grouping (multiple transmission), host mode (for overall permission control), and split-screen mode that displays up to 9 splits on the same screen.

Easy to Share

Enhances the experience of sharing files by scanning a code. It automatically determines the network of the device to readily share the QR code across the extranet and the intranet. QR code encryption and extraction are also featured, providing privacy and data security through the required entry of a 6-digit password for verification.

Scene

The whiteboard is ideal for indoor sites such as classrooms.
